

Deborah Moses

BIOGRAPHY

Deborah Moses is the founder and President of Veris Associates, Inc. and Transforming U Seminars. Her mission, "...to discover, affirm and promote the divine illumination in others" is directly related to the mission of the company.

She attended Montgomery County Community College (Pennsylvania) and Temple University, and has furthered her career with certifications in management, leadership and information technology areas. She holds memberships in the National Association of Female Executives, National Association for Women Business Owners, and American Society for Training and Development (ASTD), is a past committee chair for the March of Dimes' WalkAmerica, and is a recent recipient of the Florence Nightingale Award. She's listed in Manchester Who's Who of executives and professionals.

Veris Associates is a consulting company specializing in training and development. Creating Transforming U Seminars was a natural extension, focusing on the individual rather than corporate teams. Both businesses are based upon The CORE Approach™, which was developed and trademarked by Deborah. The CORE Approach™ uses the elements of Choice, Opportunity, Responsibility and Expectation to enable change. The approach is documented in Deborah's book entitled *Change Your Life! The CORE Approach™ to Creating the Life You Want*.

Deborah's schedule includes business management, development and delivery of training programs and seminars, speaking engagements at conferences, seminars and trade shows, and consulting and coaching. Her schedule can be hectic but she keeps life in balance, always making time for her family.
